PRODUCT INFORMATION SHEET

Stretch Hood Film

FIVE-SIDED PROTECTION

The stretch hood film stretches and conforms to the contours of the load. It is particularly suitable when pallets differ in size, shape or stability.

Key advantages

- Five-sided protection
- Cold stretch technology
- Compatible with varying pallet shapes
- Dust and moisture resistance
- Reliable elastic load containment

Indicative specifications

Parameter	Thickness	Width	Length
Configurable stretch hood	Made to order	Made to order	Made to order

Provide your pallet dimensions and wrapping equipment specification for a tailored hood film recommendation.
