PRODUCT INFORMATION SHEET

PCR Perforated Stretch Film

VENTILATED FILM

Perforated film combines a high stretch rate with controlled airflow. The solution helps reduce moisture build-up while keeping produce and pallet loads stable.

Key advantages

- 40% PCR
- Air-flow ventilation
- Double-edge roping reinforcement
- Anti-collapse and anti-slip performance
- Suitable for demanding humid environments

Indicative specifications

Parameter	Stretch rate	Net weight	Rolls / carton
17 μm × 500 mm × 2000 m	300% (1 m–3 m)	12 kg	1
23 μm × 500 mm × 1500 m	300% (1 m–3 m)	12 kg	1

Perforation patterns and edge reinforcement can be configured for fresh produce and logistics applications.
